

■ Company Introduction

Insopack Corporation is a wireless communication-related venture company established in 2000 as a spin-off from the Electronics and Telecommunications Research Institute (ETRI), and a defense industry supplier. Currently, we are developing and mass-producing communication equipment such as high-speed wireless communication devices and specialized radios for the K2 tank and other defense applications. In addition, we are also developing radios and modules used in various civilian applications such as firefighters, soccer referees, security guards, tunnel construction, shipyards, subways, unmanned aerial vehicles (UAVs), and drones.
